

A photograph of a wooden clamp, similar to a C-clamp, with the words "TIGHTEN SECURITY PRACTICES" written in bold, white, sans-serif capital letters across its two main horizontal bars. The clamp is made of light-colored wood and is held together by two thick, braided metal cables that run vertically through the center. The background is a solid, dark orange-brown color.

TIGHTEN SECURITY PRACTICES

Approved for release by NSA on 04-17-2013, E.O. 13526, AUC: 250001

#6: Remove Unused Themes/Plugins/Users

- What
 - Remove everything that isn't in active use
- Why/How does it reduce risk?
 - Even if a plugin/theme is disabled, the files are still there and are publicly accessible
 - A non-active user is one more account that can be compromised
 - Removes potential vulnerabilities
- Bonus points
 - Make plugin, theme and user audits a routine

#7: Protect WP-Config.php
